

STUDENTS' CONFERENCE

TOGETHER ON THE ROAD TO SUCCESS - COME AND JOIN US!

The slogans of this year's Students' Conference are: **interesting**, **comprehensible** and **professional**.

This year's conference combines two traditional students' conferences:

- (1) The International Postgraduate School Students' Conference (IPSSC) and the (2) Young Researchers' Day of Chemistry, Materials, Biochemistry and Environment (CMBE) at the Jožef Stefan Institute (JSI). The conference is open to all postgraduate students from the JSI and to all the collaborating universities from Slovenia or abroad.

WHY We want to offer an opportunity that will show the students how to present their research work in a simple and understandable way. The event is also an ideal place to get acquainted with the work of their peers and expand their network including their co-workers and the invited speakers, who will be sharing their knowledge and experiences gained from following their career path. The panel titled "Career Plan" will also add an additional platform for discussion.

WHEN The Student's Conference will take place on Wednesday 19 and Thursday 20 April 2017.

WHERE The two-day event will take place in the Main Lecture Hall of the JSI.

WHO The target participants are master and doctoral students of IPS, JSI and other postgraduate students from Slovenia or abroad.

DEADLINE The application and abstract submissions deadline is **15 March 2017**. To apply, visit the event webpage: <http://ipssc.mps.si>.

HOW Participants will present their work with:

- a short **abstract**;
- a **3-minute oral presentation** ("elevator pitch"), intended to present the work in an understandable and interesting manner;
- and a **poster** presentation, with more detailed information about the work.

The language used for all three contributions should be English.

ADDITIONAL INFO

Approximately two weeks before the conference, the participants will be able to attend workshops on how best to prepare for the 3-minute oral presentation. The workshops will be held by reporters whose job is to deal with ways of presenting information.

The best contributions will be rewarded!

For all additional information, questions and templates contact the IPS administration office or write us an e-mail: ipssc@mps.si.

Until then, best of luck with your research and we hope to see you soon!
