

NACIONALNI INŠTITUT ZA BIOLOGIJO

Večna pot 111, SI-1000 Ljubljana

National Institute of Biology kindly invites you to attend the lecture:

**»Institute of Biophysics Carlos Chagas Filho: an opportunity
for scientific cooperation in Brazil«,**

Prof. Dr. SANDRA M. F. O. AZEVEDO,

Institute of Biophysics Carlos Chagas Filho,
Federal University of Rio de Janeiro (UFRJ).

**The lecture will take place on Tuesday, June 17, 2014,
at 14:00 p.m. in the Lecture Hall B3
of the Biological Centre, Večna pot 111, Ljubljana.**

Abstract:

The Institute of Biophysics Carlos Chagas Filho is dedicated to teaching, research, extension and technological development in the field of Biological and Medical Sciences activities. Since its inception, the IBCCF seeks to be an institution of recognized excellence in generating knowledge for teaching and research in the life sciences. This recognition has been demonstrated especially by the number of participants in competitive national research funding programs, as well as the main forums for discussion and resolution of political science faculty in the country, beyond international programs. The IBCCF undertakes a systematic process of accreditation of its laboratories, which constitutes a paradigm of institutional assessment, essential to meet the social role of education and research systems.

Kindly invited!
